THE FERTLAN MOVEMENT.

The dispatches reserved here from the United States Marshals along the Northers frontier leave no doubt whatever that an organized Fenian invasion of Canada as in progress, to be made at four points, one of which includes a demonstration on the Winnipeg country. In addition to the proclamation of the President it; is probable that the Administration will at once send orders to all United States Marshals and military officers to arrest all persons who may be attempting to violate the neutrality laws. The gumboal Michigan has already been ordered to the entrance of the Weiland canal to prevent the Fenians from using that work.

Some of the more pathetic of the newspapers tell a very said story of Mr. JORE Hart. In 1864 Mr. JORE HART was the owner of a hundred acres of wild lands in Pennsylvania, worth sixteen cents an acre, and was running a boat on the Delaware and Hudson canal. Just then somebody struck oil on his land, and he was offered five hundred thousand dollars for it, which he refused. He built him a magnificent house, illuminated his fingers and shirt-front with gigantic diamonds, and became a candidate for Congress. And then he went extensively into oil speculations, and in three years didn't have money enough left to buy a chew of tospeculations, and in three years didn't have money enough left to buy a chew of to-bacco. He then had no other resource but to dasguise himself in burnt cork, and he is now a negro minertel in New York with a salary of one hundred dollars a week. This little story will possess no value for that reader who does not learn
